#### **DETAILED ACTION**

# Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 08 August 2006 has been entered.

#### Election/Restrictions

2. Applicant's election with traverse of species 1 in the reply filed on 01 December 2005 is acknowledged.

## Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claims 1-4, 6-11, 14, 16 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 02/02279 A2 in view of Grumbine et al, 20030194959, as set forth in the final Office action mailed 07 June 2006.
- 5. Claims 18-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 02/02279 A2 in view of Grumbine et al, 20030194959, as applied to claim 1, and

Art Unit: 3723

further in view of Wadensweiler et al, US006841057B2, as set forth in the final Office action mailed 07 June 2006.

## Response to Arguments

- 6. Applicant's arguments with respect to claims 1-4, 6-10, 14, 16-19 and 21 have been fully considered but they are not persuasive.
- 7. Applicant argues that Grumbine teaches that the void volume of the tool is based on the porous nature of the tool and not on openings formed by grooves. The examiner agrees, however, notes that applicant has not limited the tool to being non-porous, or to the void volume being based on the number and size of grooves alone. Applicant further argues that Grumbine does not disclose the void volume to be limited to "about 50% or more". It is the examiner's position that Grumbine does disclose that it is known to make abrasive tools having a void volume of between 25-50%. The upper value of the range of 50% clearly anticipates applicant's claimed invention of the void volume being "about 50%". Please refer to MPEP 2144.05 for a further discussion of the obviousness of ranges.

#### Conclusion

8. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE**FINAL even though it is a first action after the filing of a request for continued

Application/Control Number: 10/601,601 Page 4

Art Unit: 3723

examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to M Rachuba whose telephone number is 571-272-4493. The examiner can normally be reached on Monday-Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail can be reached on 571-272-4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
